Rick posted:

To set the record straight Dianna Lynn was survived by her husband of 36 years Rick Eldridge and her son William. She was among people who she loved, and they loved her. Over the last week of her life, she said that she loved it here in Jordan and she said that this was her home. Her desire was that she hope that her relationship with her sisters would be restored as it was before. She went out of her way to keep in contact with those who she loved and hoped that they would feel the same. I grieve not just of her passing but of our marriage became over the years. She was my cheer leader. She only wanted to be the best wife she could be. She had a great sense of humor and she love gatherings of all kinds. Her heart never stopped loving everyone that she ever knew. I love you Dianna (Hannah). I am so privileged that God placed you in my life.
